

# Elastio at AWS re:Invent

## Booth 1280

- Storage Software Competency
- Business Outcomes Xcelerator
- Security Software Competency
- AWS Security Incident Response Ready

## Why Elastio?

### Prove Recovery. Stop Ransomware.

If you can't prove your backups are uncompromised, you can't recover. Elastio validates data integrity across storage and backups, detects ransomware impact early, and maintains a real-time inventory of last known clean recovery points.

## Highlights

### Continuous Recovery Assurance:

Always know your last known clean across all environments.

### Detect Data Integrity Compromise:

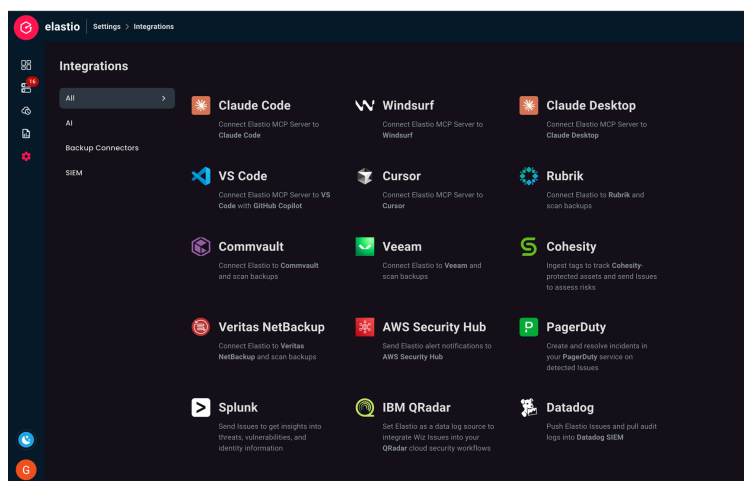

Identify encryption and corruption in storage and backups - even zero-day, fileless, or slow-moving attacks.

### Reduce Downtime and Simplify Compliance:

Continuous proof of recoverability for DORA, HIPAA, NYDFS, and internal audits.

### Complement Existing Strategies:

Add data integrity checks through simple integrations with tools you already use: backups, security (SIEM, SOAR), and more.

## Where to Find Us

**Booth 1280** (Near the Partner Pavilion)

### What's NEW?

- AWS Security Incident Response Partner
- Integration with GuardDuty
- NetApp partnership and integration
- Featured solution on AWS Marketplace for cyber resilience, security, and AI

### Happy Hour at the Wynn

**Monday–Tuesday, December 1–2**

**6:00 – 7:30 PM PT**

- Stop by the Elastio booth 1280 or “ASK Elastio” below for details

### AWS-Driven Workshop

- **Build Cyber Recovery Resilience with AWS Backup (STG403).** Strengthen your backup and recovery strategy with AWS Backup and Elastio.

### Customer Story Session: Motability Operations' Unified Backup Strategy (STG213)

- **Leveraging AWS and Elastio: From Fragmented to Fortified.** Hear how the UK's largest accessible-vehicle leasing org used AWS Backup and Elastio to build a unified, ransomware-resilient architecture.

### APAC Night: Commvault, Elastio, and NetApp

- **Exclusive APAC Gathering** | A private event for cloud, data, and security leaders across Asia-Pacific.
